Did you know...

The history of our family business

We've had a long tradition of surgical instrument makers in the Coole family, going back way before our Managing Director, Daniel, was even born.

Fred Coole, started his ophthalmic instrument making business back in 1940. Instrument workshops used to be in the West End of London, close to key hospital sites.

Instrument makers would go to work dressed in 3 piece suits, as they would have to walk through showrooms where surgeons would be viewing instruments.
